Why Partner with HSP?

Portrait of Emma Epps, c. 1920

Historic Princeton University postcard

Albert Einstein photographed on his front porch, c. 1950

Whether it's great battles or great thinkers,
Princeton's history is extraordinary

We believe that history connects us to our communities, teaches us to think critically, and promotes empathy and civic engagement through an appreciation of multiple perspectives and non-linear paths – crucial skills in today's world.

The Historical Society of Princeton is your hub for discovering local history through the eyes of the individuals who lived it. Our work fosters stewardship and ensures that Princeton's multi-faceted community is represented in its history. Our programs bring the past to life and explore its enduring relevance.

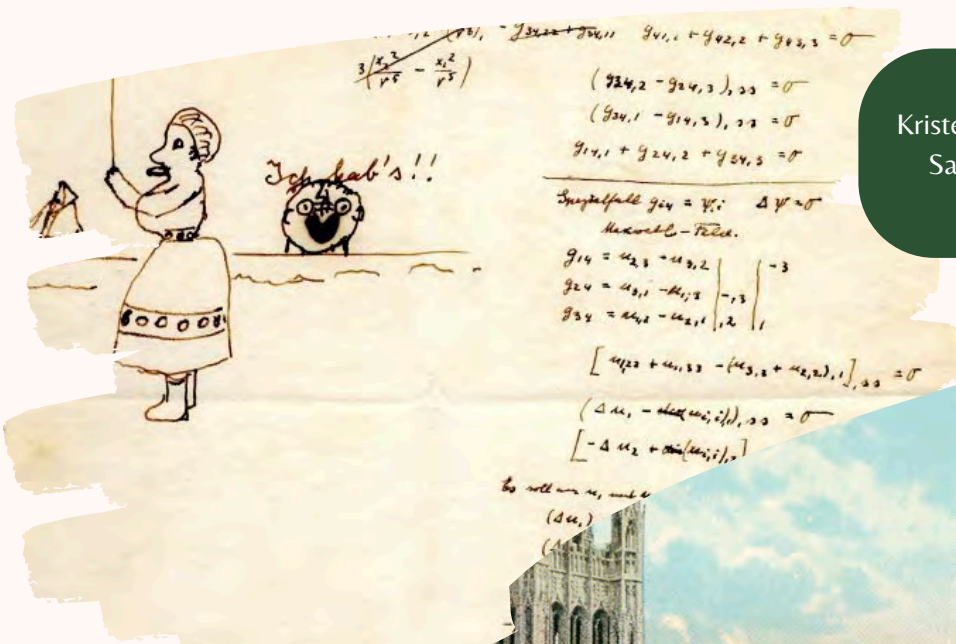

Your sponsorship provides vital support for our collections, exhibitions, public programs, and co-curricular support for schools - all of which reach over 5,000 learners in-person and more than 500,000 digitally each year.

By aligning with HSP, you are investing in the educational and cultural stewardship of Princeton's history through a community-centered organization with a strong record of educational excellence. Whether you are looking to donate in-kind services or financial support, HSP can tailor an opportunity to fit your needs.
